

WELCOME TO EMiNDS EVENTS LOUNGE

ABOUT US

EMiNDS Event Planning services comprise of qualitatively hand-picked resources to meet our clients' needs. Whether our clients like specificity or trust us to carefully execute and launch their events according to a set budget, client satisfaction is our only target. During launching EMiNDS, we chose the squirrel to be our symbol as it reflects our work ethic as a whole team. These symbols are energy, balance, preparation, and resourcefulness. It is uncommon for people to know that squirrels hide and save its food and return to it in the winter months. At EMiNDS, we take this as a sign to think of every possible resource that we could save for our clients including time. In addition, the use of squirrel reflects the old saying "what we sow is what we reap". That is reflected in our work ethics to treat our clients the very same way we want to be treated. It is also a strong message to us to be mindful of the metaphorical seeds we plant in our own work as they will surely reap the fruitfulness and the consequences as well. Our corporate colors and particularly the gold color symbolizes flexibility, eternity and perfection. These 3 symbols are attached to our values and beliefs at EMiNDS. In addition, the use of grey color symbolizes our practicality and professionalism.

OUR MISSION

EMiNDS Event Planning mission is to provide qualitative event planning services at very competitive prices to households, and corporates including educational institutions. Our diverse resources, materials, and also scheduled delivery time distinguish us from our competitors.

OUR VISION

Our vision is to become the leading event planning and management solutions in Kuwait and, ultimately, the MENA region.

A hand holding a paintbrush, painting a blue globe on a white background. The globe is partially completed, with the blue color filling in the continents. The hand is positioned on the right side, with the brush tip touching the globe. The background is white, and the overall scene is a close-up of the painting process.
